

Factors including air travel, spicy foods, alcohol, exercise and temperature can influence your finger size at a given time. As a complimentary service, we will size any ring purchased from our inventory. Use this guide to determine the best fit, and include your size with your order at checkout.

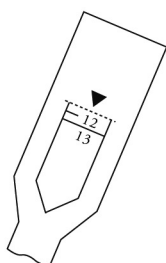

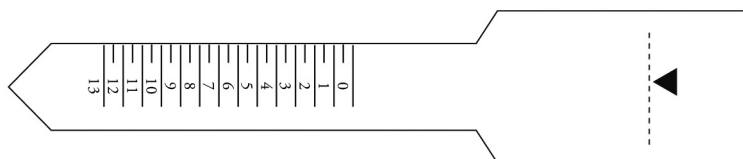

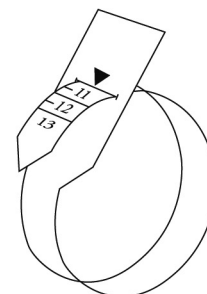

Method A

Measure a ring that fits you or your intended recipient. Place the ring over the circle, making sure the inside of the ring lines up with the outside of the circle. If you are between sizes, order the larger size.

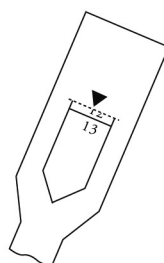

Method B

1. Cut out the sizer. Make a slot in the sizer by cutting along the dashed line.
2. Roll the sizer into a circle with the numbers on the outside.
3. Insert the pointed end into the slot.
3. Place the sizer around the finger to be measured and pull the pointed end through the slot until the paper is snug around your finger.
4. Read finger size on the scale.

In this example, the ring size is 12.

In this example, the ring size is 12½.

Print this page, but be sure to NOT have “**Shrink oversized pages to print**” or “**Expand small pages to paper size**” selected in the Print dialog box. *This is essential for proper sizing.*
